ABSTRACT

In 1992, a survey was conducted of 1990-91 graduates of the seven colleges in the Arrowhead Community College Region (ACCR) (Minnesota) to determine their satisfaction with their college experience. Of the 890 graduates surveyed, 702 responded. Survey findings, based on a 78.9% response rate, included the following: (1) 65.1% of the respondents were women, 41.6% of whom were non-traditional students (i.e., 30 years of age or older), while 62.4% of the male respondents were traditional students; (2) 77.1% of the graduates indicated that they had received some form of financial aid while attending an Arrowhead college; (3) 86.4% of the graduates were satisfied with their college experience in general; (4) students were most satisfied with their instructors' attitudes, the size of their classes, and the testing and grading system, while they were most dissatisfied with the availability and the variety of courses; (5) of the services available within the ACCR, respondents were most satisfied with academic advising and computer lab facilities; (6) nearly 90% of the graduates indicated that they intended to earn a degree when they first enrolled; (7) 43.8% of the graduates stated that when they first enrolled at an Arrowhead college, they intended to transfer to a four-year institution after receiving their degree; and (8) 85.8% of the respondents said they would attend the same college if they "had it all to do over again." The survey instrument is attached, along with tabulated responses. (JMC)

TABLES (<i>Itasca Community College's Survey</i>)	C1

INTRODUCTION

All Arrowhead Community College graduates were surveyed and asked to rate their satisfaction with their college experience. The Graduate Survey questionnaire was distributed as a student applied for graduation and was returned with the student's Intent to Graduate form. Of the 890 graduates surveyed, 702 responded to the survey. This is a response rate of 78.9%.

In addition to evaluations of the academic environment and the student services they received while attending an Arrowhead college, the graduates were asked to indicate their original educational intent, make

suggestions for improving the college and identify those things they like about the college. Information on the age, sex and financial status of the respondent was also collected.

Please note that Itasca Community College used the format they have used in the past to survey their graduates. The answers to questions on the Itasca survey that are similar to those on the standardized Arrowhead Graduate Survey questionnaire include sex and age. These responses are included in Tables 1, 2, 3 and 11. Questions specific to the (*Itasca*) *Graduate Application Survey* are tabulated separately on pages C1 and C2 of the Appendix.

DEMOGRAPHICS

Nearly half of the respondents were 21 years old or younger, 32.9% were 30 years old or older and 19.2% were between the ages of 22 and 29.

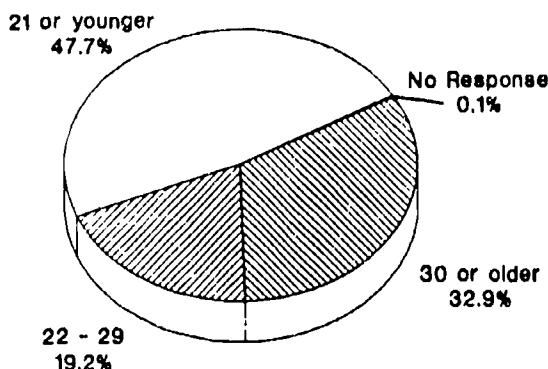

Figure 1. What is your age?

65.1% of the respondents were women. 41.6% were *non-traditional age* women, or women 30 years or older. 40.0% of the female respondents were 21 years or younger.

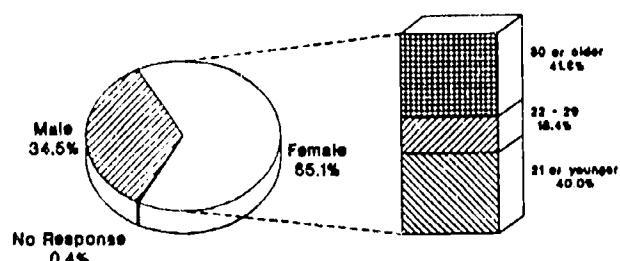

Figure 2. Age by Sex (Female)

Males constituted 34.5% of the respondents. The majority of them (62.4%) were *traditional* students, 20.7% were between the ages of 22 and 29, and 16.9% were 30 years of age or older.

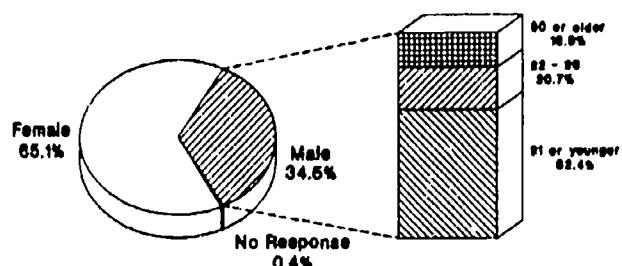

Figure 3. Age by Sex (Male)

FINANCIAL AID

Over three-quarters (77.1%) of the graduates indicated they had received some form of financial aid while attending an Arrowhead college. Twice as many female students received financial aid as male students (see Figure 4). Of all those who received financial aid, 27.1% were men under the age of 30 and 27.9% were women 30 years of age or older.

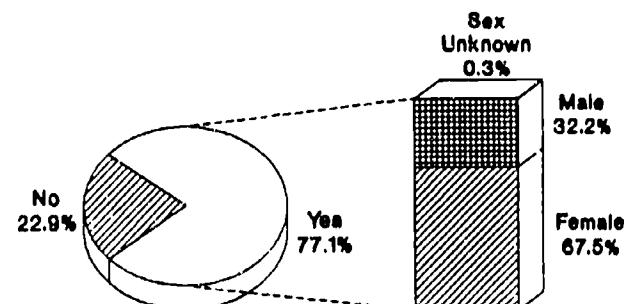

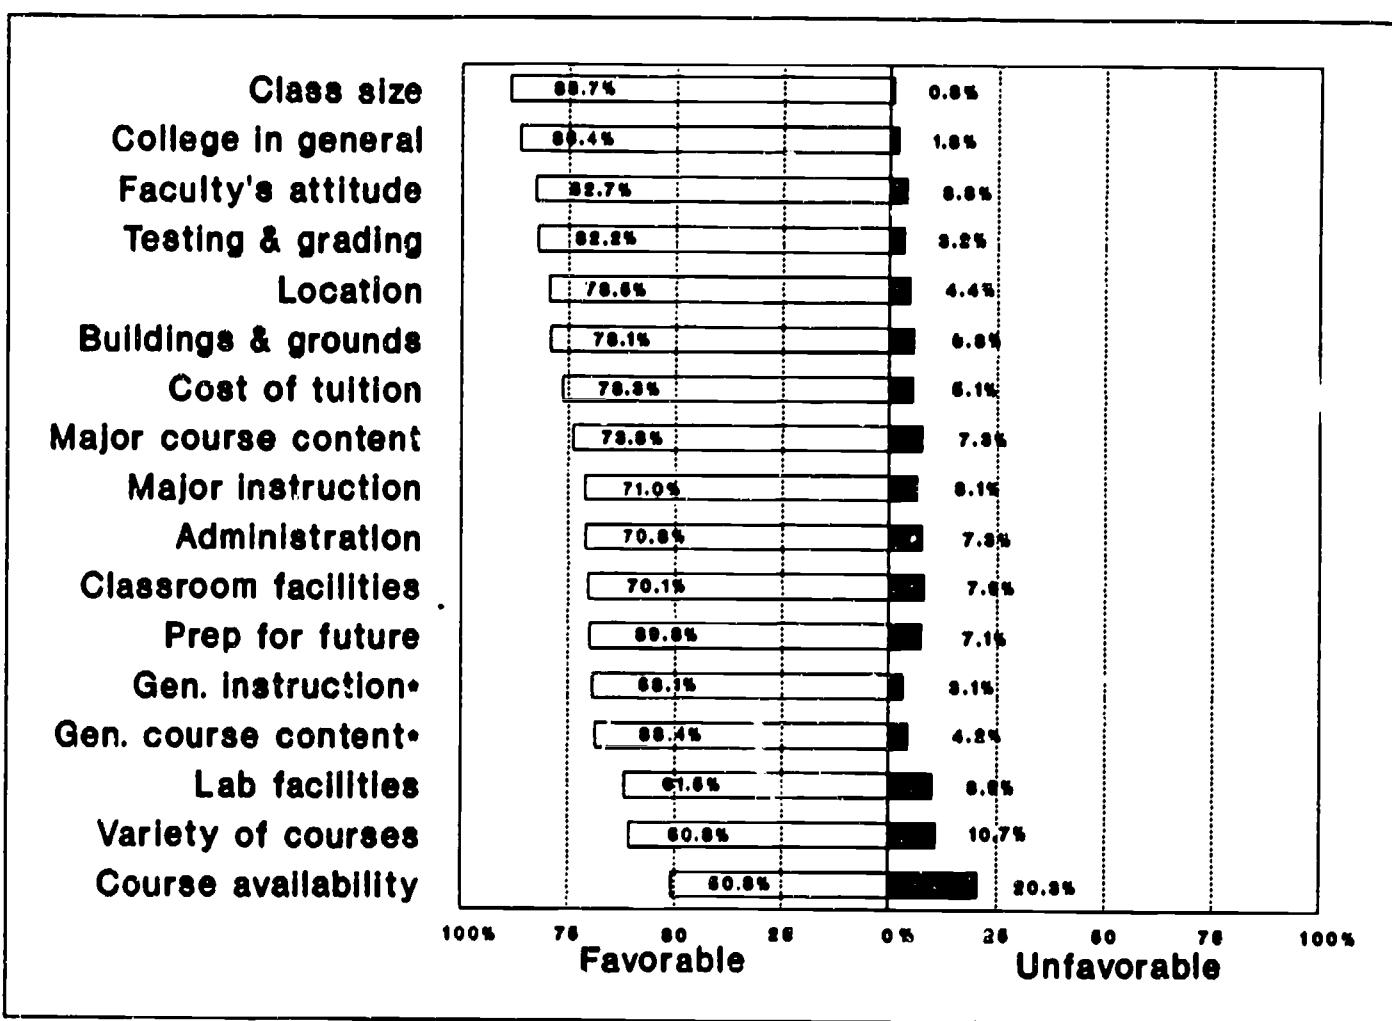

Figure 4. Did you receive financial aid?

THE GRADUATES' EVALUATION

Graduates were asked to evaluate the services provided by the college they attended. Questions 4 and 5 list specific services, facilities and programs offered by the colleges. Respondents were asked to rate each item by attributing a number ranging from 1, very satisfied, to 5, very dissatisfied. To ensure the respondent would not be forced to rate an item he or she was not familiar with or had not used, a zero was used to indicate "No Opinion".

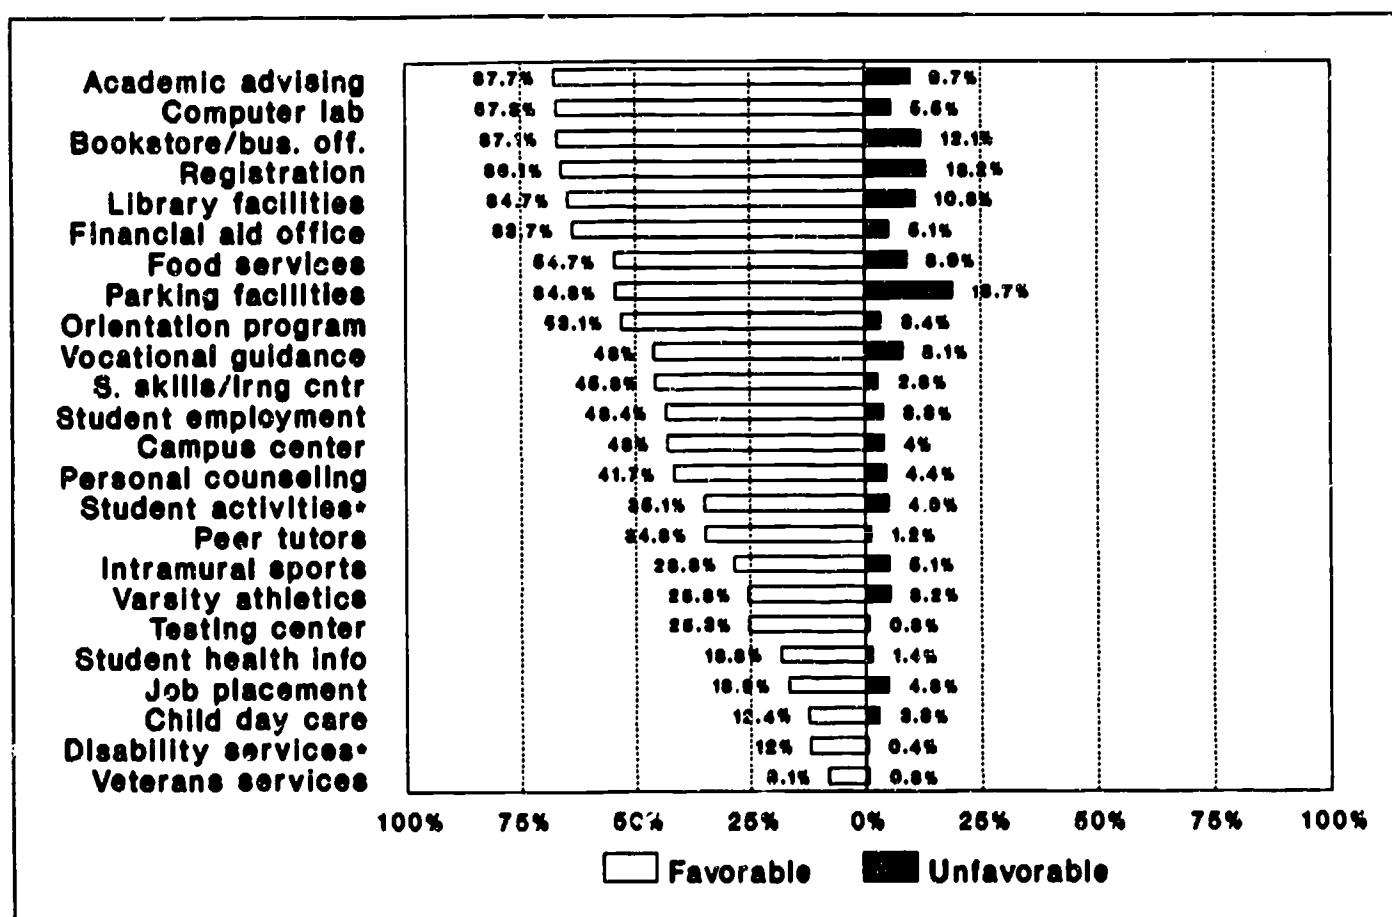

* This question was not on the survey given to the Fond du Lac and Rainy River graduates, therefore these percentages do not include those two campuses.

Figure 5. *The students' evaluation of Arrowhead colleges in specific areas (Question 4).* The favorable category represents the combination of "satisfied" and "very satisfied" responses to each of the items listed in question 4 on the questionnaire. The unfavorable category is comprised of a combination of the "dissatisfied" and "very dissatisfied" responses. The "neutral" and "no opinion" are not included in the chart. Refer to Table 6 for a complete list of the responses to this question.

86.4% of the graduates were satisfied with their college experience in general. Students were most satisfied with their instructors' attitudes, the size of their classes and the testing and grading system. More than three-quarters of the graduates were satisfied with the cost, location and general condition of the buildings and grounds. About 70% of the graduates felt the quality of instruction and course content in their major field prepared them for their future career.

More than half of the graduates surveyed were satisfied with all the items listed in Question 4.

Graduates were most dissatisfied with the availability of courses. This area received a 20.3% unfavorable rating. 10.7% of the graduates felt the variety of courses offered by the college should be increased and 9.9% thought the laboratory facilities should be improved.

* This question was not on the survey given to the Fond du Lac and Rainy River graduates, therefore these percentages do not include those two campuses.

Figure 6. *The students' evaluation of Arrowhead colleges in specific areas (Question 5).* The favorable category represents the combination of "satisfied" and "very satisfied" responses to each of the items listed in question 5 on the questionnaire. The unfavorable category is comprised of a combination of the "dissatisfied" and "very dissatisfied" responses. The "neutral" and "no opinion" are not included in the chart. Refer to Table 7 for a complete list of the responses to this question.

Question 5 asked graduates to rate various services available at the colleges. Respondents were most satisfied with academic advising and computer lab facilities. Over 60% of the graduates found the bookstore and business office, registration procedures, library and financial aid services to be satisfactory (see Figure 6). More than half of the graduates also felt the food service, parking facilities and orientation program were satisfactory or very satisfactory. The remaining areas also received positive ratings.

It should be noted that, referring to Figures 5 and 6, the items at the bottom of the chart were not rated as high as others because of the number of graduates who indicated "No Opinion" to each item. For example, the child day care center was ranked twenty-second in Figure 6 with only a 12.4% favorable rating. However, 67.7% of those surveyed indicated "No Opinion" to this item, meaning they did not use or were unfamiliar with this service.

Graduates registered very few negative responses to any items. Parking facilities, with an 18.7% unfavorable rating, received the most unfavorable response.

STUDENT INTENT

Nearly ninety percent of the graduates indicated that they did intend to receive a degree when they first enrolled in an Arrowhead college. 3.9% of the graduates reported they did not think they would earn a degree. 5.7% of them indicated they did not know whether they would at the time.

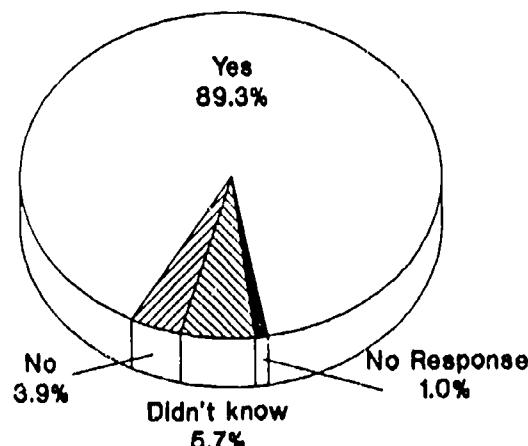

Figure 7. Did you intend to get a degree?

The graduates indicated a variety of responses when asked whether they intended to transfer to a four year institution when they first enrolled at an Arrowhead college. Figure 8 shows that 43.8% intended to transfer after they received their degree, while 25.8% did not plan to transfer. 10.1% indicated they thought they would transfer before they received a degree from

Arrowhead colleges and 18.5% were unsure of their plans at the time they first enrolled.

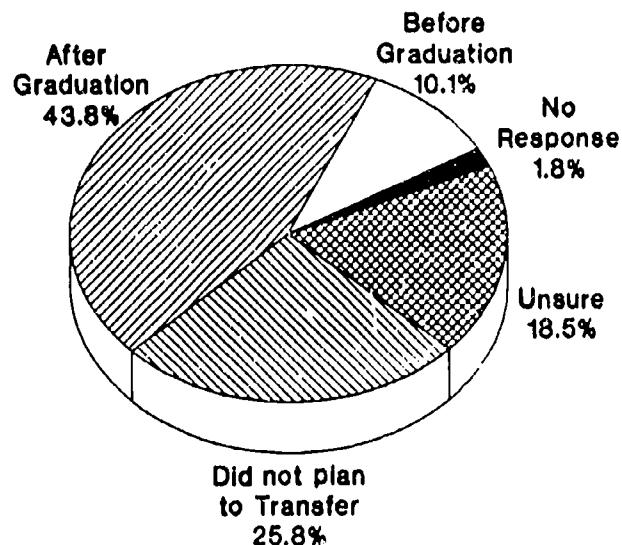

Figure 8. Did you intend to transfer?

WRITTEN COMMENTS

Questions 8 and 9 of the Graduate Survey gave the graduates the opportunity to describe in their own words what they liked best about their Arrowhead college experience and what they felt needed to be changed or improved.

The quality of instruction and the caring attitude of faculty were described by the most graduates as the best part of their college experience. Accessibility due to location and class size also received many written comments. The cost of tuition was another attractive factor to many graduates, especially at Duluth Community College Center where tuition cost was noted in over twenty percent of the responses. The help and support provided to students from Fond du Lac Community College Center and

THE GRADUATE SURVEY 1990-1991

Rainy River Community College was reported to be one of the strengths of these two colleges.

When asked what they thought needs to be changed or improved, most graduates responding to the survey from Itasca, Mesabi, Rainy River and Vermilion Community Colleges were concerned about the availability of classes and the variety of classes that are offered. Graduates of Duluth and Fond du Lac Community College Centers described the need for more adequate campus facilities. Most comments from Hibbing Community College graduates noted the need for improved campus facilities, and in this case, the need for dormitories. Provosts or Center Directors have been provided a complete report of all written comments from their graduates.

Figure 10. What do you think needs to be changed or improved at the college?

The final question on the graduate survey asked: "If you had it to do over again, would you attend the college?" The majority, 85.8% of the Arrowhead graduates stated that yes, they would do it again. The most common reasons given by the graduates were the location, cost and friendly atmosphere they found at their colleges. Most Arrowhead graduates responded to this question by writing that they received a good education that prepared them for their future.

For the fourteen percent who said they would not attend the college if they had it to do over, responses varied for each college. Graduates who indicated they would not attend their colleges again commented that they would attend a four year institution instead, that there were better programs available elsewhere, or that they had difficulty transferring courses. However, most of the graduates in this group were unsure of their reasons or offered no reasons for their dissatisfaction.

most dissatisfied with the availability and variety of courses offered.

Nearly ninety percent of those surveyed indicated that they intended to earn a degree when they first enrolled at their college. 43.8% stated that they intended to transfer to a four year institution after they received their degree when they first enrolled at an Arrowhead college.

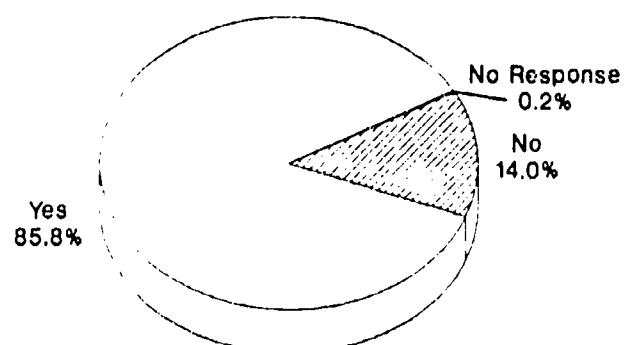

Figure 11. If you had it to do over again, would you attend the college?

IN SUMMARY

Over 85% of the 1990-91 graduates of Arrowhead colleges expressed satisfaction with their college experiences. The factors most noted as contributing to the graduates' success were the quality and attitude of the faculty, class size, cost and location. Services offered by the seven Arrowhead colleges and centers also received favorable ratings. Respondents were most satisfied with the academic advising and financial aid services and the computer lab facilities. Graduates were

GRADUATE SURVEY

This survey is given to all students graduating from the college. A confidential summary is prepared from the survey, and used to see how graduates rate their satisfaction with the College and how it could be improved. Your responses are important, and we appreciate your participation in the survey. Please mark your replies to the items below and return the completed survey along with your Intent to Graduate form.

1. What is your age?

- a. 21 years old or younger
- b. Between 22 and 29 years old
- c. 30 years old or older

2. What is your sex?

- a. Female
- b. Male

3. Did you receive any federal, state or College-sponsored student financial aid (e.g. work-study, grant, loan, scholarship, JTPA, SAP, MLT, DRS, Canadian Band or BIA funding) while at the college?

- a. Yes
- b. No

4. For each of the following items, please mark the scale value which would best match your evaluation of the item or service. (If the item does not apply to you, put a zero in the space provided.)

0 no opinion 1 very satisfied 2 satisfied 3 neutral 4 dissatisfied 5 very dissatisfied

<ul style="list-style-type: none"><input type="checkbox"/> a. Testing and grading system<input type="checkbox"/> b. Course content in your major field<input type="checkbox"/> c. Instruction in your major field<input type="checkbox"/> d. Course content outside major field<input type="checkbox"/> e. Instruction outside major field<input type="checkbox"/> f. Attitude of professors toward students<input type="checkbox"/> g. Preparation you received for your future career<input type="checkbox"/> h. Variety of courses offered by the College<input type="checkbox"/> i. Class size relative to type of course	<ul style="list-style-type: none"><input type="checkbox"/> j. Availability of courses at the times you wanted<input type="checkbox"/> k. Classroom facilities<input type="checkbox"/> l. Laboratory facilities<input type="checkbox"/> m. General condition of buildings and grounds<input type="checkbox"/> n. Administration and management of the college<input type="checkbox"/> o. Location of the college in relation to your home or work<input type="checkbox"/> p. Cost of tuition at the college<input type="checkbox"/> q. the college in general
---	---

[OVER]

5. For each of the following items, please mark the scale value which would best match your evaluation of the service. (If you have never used the service, put a zero in the space provided.)

0 no opinion 1 very satisfied 2 satisfied 3 neutral 4 dissatisfied 5 very dissatisfied

- a. Academic advising and course planning
- b. Counseling for personal concerns or problems
- c. Vocational guidance and career planning
- d. College orientation program
- e. Intramural sports
- f. Varsity athletics
- g. Financial aid office
- h. Student employment
- i. Job placement
- j. Veterans Services
- k. Student health information
- l. Food services
- m. Child day care center
- n. Parking facilities
- o. Campus center

- q. Peer tutors
- r. Registration
- s. Bookstore/Business office
- t. Testing center
- u. Library facilities
- v. Computer lab
- w. Student activities
- x. Disability services

6. When you first enrolled at the college, did you intend to get a degree?

- a. Yes
- b. No
- c. Didn't know at the time

7. When you first enrolled at the college, did you intend to transfer to a different college?

- a. Before you received a degree.
- b. After you received a degree.
- c. Did not plan to transfer.
- d. Was unsure at the time.

8. What did you like best about the college? _____

9. What do you think needs to be changed or improved at the college? _____

10. If you had it to do over again, would you attend the college?

a. Yes b. No WHY? _____
